CONSCIOUS

Project title: Curriculum Development of Human Clinical Trials for the Next Generation Biomedical Students

Registration number: 2018-1-HU01-KA203-047811

Duration of the project: 31/12/2018 – 30/11/2021

Total budget: EUR 299 755

Coordinator:University of Pecs

Partners: Université Paris Diderot – France

Universidade Nova de Lisboa - Portugal

University of Cork – Ireland

Masaryk University - Czech

In CONSCIOUS project the planned European and world-wide level of e-learning material and curriculum will meet the needs of biomedical students towards having a very unique and socially useful career via an innovative online, work-based, multi-disciplinary learning model. The cooperation between project partners and the associated partners gives a solution to a real-world problems (development of innovative health products, exploration of new indications for authorised health products, comparative assessment of efficacy and safety of approved healthcare strategies) via increasing the efficiency of international clinical trials.
